

# Special Report

## The Cyber Security Conference Miami & Lunch Awards Miami 2016

January 27, 2017 -Hotel Intercontinental Doral

Organized and hosted by the Minority Chamber of Commerce in partnership with the **FBI**, the **State of Israel**, **SCARS**, **Miami Dade County Emergency Department**, and **Clarium Managed Services** who is the Minority Chamber of the Cyber Security Program. The key objective of the event was to share experiences, leverage knowledge and impart awareness among our members, the industrial communities in Miami Dade, business leaders as well as relevant local partners.

**Mission:** The Minority Chamber of Commerce offers timely and valuable resources for our members in different platforms and development. With a tenacious desire to further cyber security awareness, education and networking opportunities, the Chamber upholds a vision to offer constant conferences, updated and relevant information for business from all industries.

During panels discussions by experts and professionals from the security industry and the U.S. Government, several key topics were highlighted, including: *how to develop an encompassing strategy on threats to small businesses on a local level; ways to spread awareness regarding the importance of protecting digital assets, systems from cyber threats and the need to protect basic infrastructure for business security.*

### Our Speakers at the Forum:

“Protecting Digital Assets in your Business: Government, Industry and Banking Perspectives”

Welcome to the Speaker by Doug Mayorga

Minority Chamber

# THANK YOU TO ALL ATTENDEES

## The main goal of our Cyber Security Conference

- Local business community experience and achievements to date in securing digital assets through Cyber Security.
- learn and share Cyber Security Best Practices, Implementing a plan on a Cyber Attack
- Understanding the Human Factor Dynamics in Cyber Security and Preparedness
- To identify the emerging Cyber trends impacting cyberspace in today's scenario.
- To create awareness on new emerging cybercrimes that are impacting small business.
- To educate the community about protecting information
- For stakeholders and experts to share knowledge and expertise
- To present cutting-edge information to broaden cyber security knowledge.
- To offer a comprehensive program which includes plenary sessions with high-level keynote speakers and break-out sessions on conference themes and topics.

## Our Keynote Speakers General Session

Hon. Consul of Israel, Mr. Lior Haiat

Mr. Frank Cuomo, VP- Sourcing & Procurement Univision

**Mr. Haiat:** gave an overview on the State of Israel as a regional power devoted to ensuring its own survival, Israel has grown into a high tech epicenter built around Internet security, anti-virus software, and other cyber defense technologies. Much of this is an extension of its self-reliance and the added fact that since the creation of modern Israel, the nation has faced enemies on its borders. The challenging environment Israel faces in the Middle East on the physical world has reflected also on the cyber world.

**Mr. Cuomo:** He presented information on the present and future of procurement opportunities for diversity companies in South Florida. Minority companies were provided insight on the intrinsic value of the minority supplier development program from Univision and shared proven strategies with the Minority Chamber of Commerce, providing a direct link between Univision and members. He explained about his budget for 2017 and other opportunities available.
